

Find a Pharmacy that Offers Vaccines

Your prescription drug plan covers vaccines, which are now available at many retail pharmacies. Vaccines administered at your retail pharmacy usually don't require an appointment and use the same effective medications as your physician's office.

Before You Visit the Pharmacy...

- Check with your plan sponsor about vaccine coverage and copayment information.
- Make sure the pharmacy you use is part of your Express Scripts participating pharmacy network. If you're not sure, use the Locate a Pharmacy feature to find out.
- Call the pharmacy to verify their current vaccination schedule, vaccine availability, and any age restrictions.

When You Get to the Pharmacy...

- Be sure to present your prescription member ID card at the time of service.
- Some of the pharmacies below may have an on-site clinic that offers vaccines. Be sure to **get your vaccine from the pharmacist at the pharmacy**, not from the clinic.

Chain Pharmacies That Offer Vaccines
